^{*} Related to Revenue from contracts with customers

2022 financial and operational highlights

Year 2022 was marked by the high economic uncertainty and large changes on the commodity market caused by war in Ukraine, that impacted the entire economy. Oil and gas industry throughout the world recorded strong results in such times, but also faced a variety of regulatory pressures, ranging from regulated prices in various business areas to extra taxes imposed.

INA Group CCS EBITDA excl. special items in 2022 amounted to around HRK 5.5 billion with net profit of HRK 1.9 billion. Net profit was impacted by one-off items in the total amount of HRK 789 million. Refining and Marketing incl. Consumer services and Retail segment result was highly impacted by regulatory limitations which, combined with the intensive investment cycle in the Rijeka Refinery Upgrade Project, resulted in around one billion HRK negative cash flow of the segment. Exploration and Production returned to the position of the main cash generator, reflecting improved price environment. EBITDA of Exploration and Production amounted to HRK 4.9 billion, limited from Q4 2022 by the regulated gas prices at 41 EUR/MWh, which is to stay in force until Q1 2024. Natural decline of production is moderated through increased production optimization activities, amounting to -4% on yearly level. Offshore drilling campaign continued throughout the year with results already visible in 6% higher production volumes offshore. 2022 was additionally marked by various price and margin regulations impacting operational result of both segments, with newly imposed extra profit tax burdeining cash generation.

Investment activities in 2022 were highest in the last ten years, with a 71% increase compared to 2021, total of HRK 2.7 billion, out of which 95% invested in Croatia. Rijeka Refinery Upgrade Project and the Offshore drilling campaign remain the biggest investments. Operating cash flow of the company remains stable on year level, despite the strong investment cycle and working capital needs consumes the improved results from operations.

⁽¹⁾ EBITDA = EBIT + Depreciation, amortization and impairment (net)

⁽¹⁾ LBH 12A = LBH 14 Depleted and in an initial and a linguishment (1981)
(2) In 2021 result was negatively impacted by IRK (88) million of cost of provisions for Ivana D decommissioning, while in 2022 operating result was negatively impacted by impairment and reversal of impairment of asset in the amount of HRK (178) million and additionally net profit was impacted by extra profit tax in the amount of HRK (611) million
(3) Simplified free cash flow = CCS EBITDA excluding special items - CAPEX

⁽⁴⁾ In converting HRK figures into US Dollars, the following average CNB (HNB) rates were used: as at 31 December 2021 – 6.6435 HRK/USD; as at 31 December 2022 – 7.0640 HRK/USD; for Q1 2021 – 6.2739 HRK/USD; for Q1 2022 – 6.7147 HRK/USD; for Q2 2021 – 6.2464 HRK/USD; for Q2 2022 – 7.0649 HRK/USD; for Q3 2021 – 6.3528 HRK/USD; for Q3 2022 – 7.4560 HRK/USD; for Q4 2021 – 6.5673 HRK/USD; for Q4 2022 – 7.4034 HRK/USD

President of the Management Board comment

Mr. Péter Ratatics, President of the Management Board comments on the results:

"2022 was marked by worldwide energy market turmoil, but also one of the strongest investment periods for INA ever. Despite the huge oscillations on hydrocarbon prices and the regulatory interventions, INA stays committed to the ongoing large investment cycle. Rijeka Refinery Upgrade Project, the biggest investment of INA and the offshore drilling campaign push the investments to the highest level in ten years, with more than HRK 2.7 billion investments in total. Also, it is worth mentioning that Rijeka Refinery Upgrade Project is at 70% total completion, which will ensure sustainability of refining business on the long run.

Exploration and production, once again the biggest contributor to the result, is moderating the natural production decline. With the increased investment level, both offshore and onshore, INA achieved production decrease on yearly level of just 4%, while reserves can be expected at stable level for the first time in several years. When talking about the gas production we must also mention the regulatory price limit on gas price. Its effect was not crucial in 2022 but could be significant in 2023. Refining operations ensured safe market supply, something which cannot always be taken for granted in the current geopolitical circumstances. Supply of blue diesel was especially challenging, but INA provided the market with all needed products.

Regulatory limitations impacted the profitability of the wholesale and retail, which combined with the heavy investment cycle, caused negative cash flow of the segment. 2023 is hard to predict, but the limit on gas prices, imposed from Q4 2022 is sure to have a material impact on the operations. Nevertheless, with the moderation of natural decline and the successful transformation of INA refining, we will strive to provide our shareholders and consumers with safe supply and profitable operations."

Calculated based on total sales revenue including natural gas internal selling price as well

2022 vs. 2021

Key drivers

- Higher prices impacted sales revenues positively since the strong effect of gas price regulation is visible only as of Q4 2022. Revenues are higher by HRK 2,605 million, overall gas sales revenue added HRK 1,670 million of positive effect, while 43% higher Brent price brought an additional HRK 780 million crude oil and condensate sales revenues with other products positive impact on revenues in the amount of HRK 155 million
- Production decreased by only 4%, compared to 8% decrease 2021 vs. 2020, which is a strong improvement considering the maturity of INA oil and gas fields. This is mainly an impact of an intensive investment campaign:
 - Successfully performed actions in the scope of Production optimization project and
 - Positive effect of putting into production two new Offshore wells (Ika B & Marica D) which almost offset
 - Natural decline and higher water cut on major gas fields on Deep Podravina area
- International crude oil production:
 - Egypt: natural decline and lower well performance at all concessions
 - Angola: better well performance on Block 3/05

Capital expenditures

| 2022 (HRK mln) | Croatia | Egypt | Angola |
|----------------|---------|-------|--------|
| Exploration | 1 | 16 | _ |
| Development | 560 | 90 | 15 |
| Other | 113 | - | - |
| TOTAL | 674 | 106 | 15 |

Higher CAPEX level mainly as a result of Croatia Offshore drilling campaign and onshore development activities. Main activities during 2022 were related to:

Croatia Exploration:

- Drava-03: Permitting and documentation preparation for drilling finished; exploration drilling postponed to 2023
- SZH-01: Attribute analysis, geochronological study and economic evaluation finished

Croatia Development Offshore:

- Ika B-1 R and Marica D Dir well production started, authority technical inspection finished and use permit obtained
- Drilling and well testing of wells Ilena-2, Ida D-1 ver, Ira-1 dir and Ida D-2 ver finished, economic evaluation underway Croatia Development Onshore:
 - In total 62 workovers were performed
 - Zalata-Dravica: Dravica-3 well is negative. Preparation of PreFEED study, settlement of property legal relations on gas pipeline route and issuance of location permits ongoing

Egypt

- East Damanhur: ED-2X exploration well was drilled as gas discovery 0
- Egypt, North Bahariya concession: 9 development wells drilled (5 producers put in production and 4 water injectors)
- East Yidma: Divestment process for East Yidma has been finalized

Angola:

Divestment of Angolan assets: SPA with Afentra Angola, Ltd. was signed; in December 2022 transfer of INA's Participating Interest (PI) on blocks 3/05 and 3/05a has been approved by the Minister of Mineral resources

^{**} In 2021, result was negatively impacted by HRK (88) million of cost of provisions for Ivana D decommissioning, while in 2022, operating result was negatively impacted by impairment and reversal of impairment of asset in the amount of HRK (178) million

*** Simplified free cash flow = EBITDA excluding special items – CAPEX

2022 vs. 2021

Key drivers

- Rijeka Refinery start-up was planned and executed at the end of March. Favourable macro environment supported profitable
 operation on maximum capacity in the peak summer months, mitigating risk of lower product availability on global market driven by
 Russian-Ukrainian crisis. Market was supplied from import in Nov-Dec 2022 due to Residue Upgrade Project brownfield projects
 activities execution in Rijeka Refinery
- Trading activities were mainly focused on competitive crude sourcing, safe and timely product sales and supply, own consumption
 optimization and inventory risk management. In the challenging environment on the market INA stood out as a reliable supplier for
 all products, especially Blue diesel
- INA maintained the strong market position on core markets, with both commercial and retail margins under pressure due to government price regulations throughout 2022
- Total Retail sales volumes amounted to 1,173 kt in 2022 which is 11% above 2021, with significant contribution coming from Croatian (+116 kt) market as a result of lifted COVID restrictions and excellent tourist consumption
- Non-fuel margin increased 18% reflecting continuous expansion in consumer goods, increasing number of Fresh Corners and improved sales activities. INA Loyalty program in Croatia surpassed 450 thousand registered members
- Lower Clean CCS EBITDA was primarily driven by regulated prices of motor fuels and natural gas in Croatia together with downward fuel market price trends in H2 2022, which was to the great extent mitigated by strong refining margins, especially in Q2 period, and stable commercial performance

Capital expenditures

- Refining and Marketing CAPEX amounted to HRK 1,617 million:
 - o Rijeka Refinery Upgrade Project The Project achieved 70% completion in overall, with mechanical completion expected in H1 2024. The engineering and procurement reached above 99% with all of the designs completed. Construction reached 52% with the main achievements including the heavy lifting of Coke Drums and Fractionator for the Residue Upgrade Unit, performing most of the civil works on the maritime part of the Port and successfully passing test activities for the newly constructed high-voltage powerline and substations
 - CDU energy efficiency upgrade project Main design completed in September 2022 and building permit issued in December 2022. All contracts for long-lead items signed. The first part of the civil works as well as major overhaul of the existing pumps is currently underway during Rijeka Refinery shutdown
 - Replacement of condensing turbines with electric drives Detail design reached 90% completeness. Preparatory work started
- Consumer Services and Retail capital investments amounted to HRK 142 million in 2022 with focus on service station modernization and continued roll-out of Fresh Corner concept, which is present at 137 service stations (o/w 101 in Croatia). Two new service stations opened in Croatia & Montenegro reaching 506 service stations on INA Group level

Intersegment transfers and consolidation adjustments

Intersegment transfers and consolidation adjustments indicate unrealised profit/loss on domestic crude oil and natural gas being transferred from Exploration and Production to Refining and Marketing but still being kept on INA inventory as crude oil/natural gas or finished/semi-finished product. Intersegment EBITDA effect on result in 2022 is HRK (114) million compared to HRK (292) million in 2021.

Financial overview and notes

Condensed Consolidated Statement of Profit or Loss

Notes

- 1 **Revenue from contracts with customers** in 2022 amounted to HRK 35,114 million and is 57% higher compared to 2021, supported by improvement in hydrocarbon prices and product quotations
- 2 Costs of raw materials and consumables at HRK (13,048) million were 49% higher than 2021 level, reflecting different dynamic of refinery operations and higher prices
- 3 Other operating costs realized in 2022 include:
 - Other material costs in the amount of HRK (2,204) million were higher by 18%, mainly driven by higher transportation and maintenance costs
 - Service costs in the amount of HRK (549) million were 17% higher than the 2021, mainly driven by the effect of subsidiary liquidation
 - Depreciation, amortisation and impairment (net) in the amount of HRK (1.838) million were at the level of 2021
 - Impairment charges (net) had a negative effect in the amount of HRK (137) million in 2022 compared to negative effect in the amount of HRK (81) million in 2021, mainly due to higher receivables collection in 2021
 - Provision for charges and risk (net) had a negative effect in the amount of HRK (358) million in 2022 compared to HRK (313) million negative effect in 2021
- 4 Staff costs in the amount HRK (1,803) million were 2% higher than the 2021
- Costs of other goods sold in 2022 increased compared to 2021 and amounted to HRK (13,181) million resulting from price increase and higher import to ensure market supply
- 6 **Net result from financial activities** is negative in 2022 mainly as a result of:
 - Net foreign exchange loss amounted HRK (111) million in 2022, while in 2021 gain reached HRK 10 million
 - Interest expense amounted to HRK (90) million and interest income amounted to HRK 8 million in 2022, while in 2021 interest
 expense amounted to HRK (88) million and interest income to HRK 1 million
 - Other financial net gain amounted to HRK 69 million in 2022 compared to HRK 171 million 2021
- Income tax expense in 2022 amounted to HRK (1,177) million compared to HRK (267) million income tax expense in 2021. Tax costs and deferred taxes during the reporting period are calculated based on actual results and the profit tax rate, 18% for the periods ended 31 December 2022 and 2021.

As of December 21st, 2022 Extra Profit Tax Law entered into force, extra profit tax in the amount HRK (611) million is calculated for INA d.d. as it is only company within the INA Group meeting the prescribed criteria.

Condensed Consolidated Statement of Financial Position

Notes

- 8 As at 31 December 2022 INA Group total assets amounted to HRK 23,877 million, 8% higher than 31 December 2021
- 9 In the period ended 31 December 2022, INA Group invested HRK 84 million in **intangible assets**. The effect of depreciation equals HRK 72 million
- 10 In the period ended 31 December 2022, INA Group invested HRK 2,644 million in **property, plant and equipment**. The effect of depreciation reduced net book value in the amount of HRK 1.449 million
- 11 Inventories amounted to HRK 2,999 million and increased compared to HRK 2,146 million on 31 December 2021 mainly due to higher prices and volumes
 - During 2022, HRK (181) million was recognized as an impairment of refined products and work in progress (in 2021 impairment
 of refined products and work in progress net impact was neutral) within Changes in inventories of finished products and work
 in progress within statement of profit or loss
 - During 2022, HRK (27) million was recognized as impairment of merchandise (2021: HRK (9) million was recognized as impairment of merchandise) within Cost of other goods sold within statement of profit or loss
- 12 **Trade receivables (net)** amounted to HRK 2,739 million, which is 36% higher than on 31 December 2021 mainly due to higher sales value and improving price environment
- Share capital as at 31 December 2022 amounted to HRK 9,000 million. There were no movements in the issued capital of the Company, in either the current or the prior financial reporting
- As at 31 December 2022 **total liabilities** amounted to HRK 11,942 million, 7% higher compared to 31 December 2021. INA Group **net debt** amounted to HRK 683 million and increased compared to 31 December 2021. **Net gearing** increased from 4.2% as at 31 December 2021 to 5.4% as at 31 December 2022
- 15 Trade payables amounted to HRK 2,484 million and increased by 16% compared to 31 December 2021

Condensed Consolidated Cash Flow Statement (Indirect method)

Notes

- The **operating cash flow before working capital changes** amounted to HRK 5,350 million in 2022 representing an increase compared to 2021, which is in line with the change in EBITDA performance excluding non-cash items
- 17 **Movements in working capital** affected the operating cash flow negatively by HRK (1,886) million, due to:
 - Increase in value of inventories in the amount of HRK (1,258) million, mainly related to higher prices and volumes
 - Increase in receivables in the amount of HRK (1,460) million mainly related to higher sales prices
 - Increase in trade and other payables amounted to HRK 832 million, mainly related to higher purchase prices and volumes in line with production dynamics
- Net cash used in investing activities amounted to HRK (2,619) million of outflows due to intensive investment in Refining operations and Exploration and production Offshore operations and is higher compared to HRK (1,463) million outflows in 2021

Reclassification

INA Management Board adopted at December 2022 the updated version of INA Group Accounting Policies and Procedures.

The updated version of INA Group Accounting Policies and Procedures policies have been consistently applied to all the periods presented, unless otherwise stated. Also, CCS calculation including CO₂ adjustments was updated. If the items in the consolidated financial statements are amended, all comparative amounts are reclassified.

During 2022, impairment of two oil fields in Egypt was recognized in the amount of HRK 86 million. Since the conditions that led to this impairment existed in previous periods the Group decided to restate the amount of HRK 32 million to income statement of 2021, and the amount of HRK 53 million to retained earnings as at 1 January 2021 to present the impacts in periods to which they relate to. As this is a temporary tax difference, a deferred tax asset was recognized on the previously mentioned figures applying the income tax rate of 18%. During 2022, the Group revised the accounting treatment of excise duties calculated on oil derivatives which have not been sold at period end which resulted in understatement of current assets. To correct the revision impact, the Group restated the statement of financial position as at 1 January 2021 by increasing the current assets in the amount of HRK 90 million and increasing the retained earnings for the same amount as this change relates to periods prior to the ones presented in these consolidated financial statements.

As at 31 December 2022, the Group fair valued its 7.75% investment in OMV Slovenia which was previously carried at cost. As the fair valuations should have been recorded in previous periods also, the Group presents as a restatement the impact on the statement of financial position as at 1 January 2021 a share value increase of HRK 123 million with fair value reserves and deferred tax liability as an opposite side. In 2021 the result of fair valuation decreased the share compared to the opening balance in the amount of HRK 22 million.

During 2022, the Group presented separately property which meet the definition of investment property as per IAS 40 in the amount of HRK 136 million. To present comparative effects HRK 92 million and HRK 97 million were reclassified as at 31 December 2021 and 1 January 2021, respectively, with no impact on presented income statements.

Other reclassifications within long-term assets, short-term assets and short-term liabilities refer to presentation of assets and liabilities within the lines to which they belong by type and are not significant in terms of amount.

Special items in operating profit and EBITDA

In addition to international accounting standards, international reporting standards and regulatory requests the company discloses special items to achieve a higher level of transparency and to provide better understanding of the usual business operations. Business events not occurring regularly and having a significant effect on operations and results are considered as special items. INA has adopted the materiality level for the special items in the amount of USD 10 million or above. If special items reach materiality level on cumulative basis, previous quarters are restated. Furthermore, in accordance with the adopted accounting policies and IFRS 36 – Impairment of Assets, INA performs impairment testing at the end of each reporting period if impairment indicators are assessed to be significant.

In 2021, the result was impacted by cost of provision for Ivana D decommissioning in the amount of HRK (88) million due to capsizing of the platform in 2020.

In 2022, operating result was negatively impacted by impairment and reversal of impairment of asset in the amount of HRK (178) million and additionally net profit was negatively impacted by extra profit tax in the amount of HRK (611) million. Syrian assets are now fully impaired due to the continued force majeure and adverse geopolitical situation, while Northern Adriatic Concession Area value increased with the increase in gas prices.

| HRK min | 2021 | 2022 |
|--|------|-------|
| INA GROUP | | |
| Total impact of special items on net profit/(loss) | (88) | (789) |
| o/w Extra profit tax | | (611) |
| Total impact of special items on operating profit/(loss) | (88) | (178) |
| Total impact of special items on EBITDA | (88) | - |
| Exploration & Production | | |
| Total impact of special items on operating profit/(loss) | (88) | (178) |
| Impairment of asset in Syria | - | (282) |
| Reversal of impairment for Northern Adriatic Concession Area | - | 104 |
| Total impact of special items on EBITDA | (88) | - |
| Cost of provision for Ivana D decommissioning | (88) | - |

Financial instruments and risk management

Risk Management procedures of INA Group are described in detail in Consolidated and separate Financial Statements of INA for the year ended 31 December 2022.

As of 31 December 2022 INA Group had:

- Opened short-term forward commodity swap transactions to hedge its exposure to changes in pricing periods and fixed price contracts
- Contracted and available short-term credit lines amounted to HRK 4,131 million excluding overdrafts and trade financing credit lines established with the purpose to finance the purchase of crude oil and oil products
- Contracted and available long-term credit lines amounted to HRK 2,260 million
- Issued long-term bond of HRK 2 bln, with a fixed annual interest rate and maturity in December 2026

Russia - Ukraine conflict

Management is continuously investigating and assessing the possible effects of the current geopolitical situation, international sanctions and other possible limitations on the supply chain and business activities of INA Group, driven by the Russia's invasion of Ukraine that commenced on 24 February 2022. INA Group exposure to Russia and Ukraine does not require any adjustments to these financial statements as of 31 December 2022, and is not expected to jeopardize the business continuity of the Group.

Related party transactions

INA Group has dominant position in Croatia in oil and gas exploration and production, oil refining and sale of gas and petroleum products. As a result of the strategic position of INA Group within the Croatian economy, a substantial portion of its business and the business of its subsidiaries is transacted with the Croatian Government, its departments and agencies, and the companies with the Republic of Croatia being their majority shareholder.

Transactions between INA, d.d. and its subsidiaries, which are related parties of the Company, have been eliminated on Group level consolidation.

During 2022, INA Group entered into the following trading transactions with the following related parties:

| INA Group | Sales of goods | Purchase of goods |
